## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by Scott et al. (U.S. Patent No. 6,331,838).

Regarding claim 8, Scott et al. teaches in figures 1-6 a GPS antenna unit for mounting on a motor vehicle [2] for receiving a radio wave from a GPS satellite, comprising: a unit case [3] including an interior portion and an exterior surface, a helical antenna [10] extending from the exterior surface of the unit case [3]; a controller [22] accommodated within the interior portion of the unit case [3] for processing the radio wave received by the helical antenna [10]; and a component (i.e. the roof or other location on a variety of vehicles; See col. 3, lines 55-59) secured to the vehicle [2], the

Art Unit: 2821

componen including a space for holding and positioning the unit case [3] with the helical antenna [10] being exposed for receiving radio waves; wherein the component for the motor vehicle [2] positions the unit case [3] in a predetermined posture for orienting the helical antenna [10] to face a zenith when the unit case [3] is secured to the component and the component is attached to the motor vehicle [2] in a regular posture thereof.

***Allowable Subject Matter***

3. Claims 1-7 are allowed.
4. Claims 9-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record neither teach nor make it obvious the claimed limitation of the instant application as a whole as recited in claims 1-2, respectively. In particular, the prior art does not teach or suggest a body or component for two-wheeled motor vehicle, the body or component for holding the unit case. The dependent claims are allowable for at least the above reason.

The prior art does not teach or suggest the unit case is positioned within a casing for the mirror or the unit case is mounted inside the cowl or the unit case is mounted inside the fender or unit case is positioned within a casing for the headlight or the unit case is positioned within a casing for the meter panel as required by claims 9-13.

***Response to Arguments***

6. Applicant's arguments with respect to claim 8 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
